RACHEL **NORTON** FOR BOARD OF EDUCATION

Rachel Understands The Impact School Board Decisions Have On The Classroom

Rachel understands the real impact School Board decisions can have on a teacher's classroom, on its students and on their families.

Because she and her husband chose public school for their daughters, Rachel has the unique position to see first-hand the challenges and opportunities teachers and kids face every day.

She sits down with her kids every night to help with their homework.

She's at their school almost every day, volunteers in the classroom and meets with their teachers to discuss her children's progress.

Classroom experience is an important perspective to have when you're making decisions that can significantly affect families, students and their teachers.

Rachel's Committed To Improving Our Public Schools

As a member of Parents for Public Schools, Rachel works tirelessly to improve and ensure a quality education for every student, leading the effort to empower parents with the tools they need to ensure their child and every child across the district gets the best possible education.

Her work on the SFUSD Community Advisory Committee for Special Education helps ensure children with special needs get the instruction they need to succeed just like any other student.

Rachel knows that attracting skilled and engaging teachers is one of the biggest influences on students' ability to succeed in the classroom. As a member of the Proposition A steering committee, she dedicated countless hours last spring working to pass the parcel tax that will raise teacher pay and attract quality teachers.

Rachel has the experience we need and proven commitment our schools deserve.
